Justification Statement: The City requires Architectural and Engineering design services to provide the required drawings and specifications to support construction of the Taxiway "L" Extension Phase 3B and the associated extension to Taxiway "M" project and the required runway and taxiway pavement, airfield lighting, marking and grooving and connecting taxiways to the existing airfield.

Background:

This design project consists of the paving, lighting, signage and striping for the Taxiway "L" Extension Phase 3B and associated Taxiway "M". The pavements will be Portland Cement concrete, with asphalt shoulders and a soil cement base. A runway and taxiway lighting system will also be installed in this project. Other incidental items in the job will include pavement under drain systems, grassing and erosion control, and coordination with FAA and other contractors working in the area. This project will utilize one of the City's pre-qualified Portland Cement Paving Contractors to accomplish all concrete paving work associated with this project.
